

DAVID JONES

Frontend Developer | UK

davejonesuk.dev | github.com/DJ-86 | davidmarkjones86@gmail.com | 07928833800

PROFESSIONAL PROFILE

Self-taught Frontend Developer with proven ability to build projects from concept to deployment. Strong foundation in vanilla JavaScript, DOM manipulation, responsive design, and deployment. Transitioning from automotive repair background, bringing methodical problem-solving and persistence to web development challenges.

CORE SKILLS

Frontend Development: HTML5, CSS3, Responsive Design, Vanilla JavaScript, DOM Manipulation, Event Handling, State Management

Tools & Environment: Git, GitHub, Docker, Linux, FTP, Deployment

Learning: React, Full-stack Development, Home Automation & Infrastructure

PROJECTS

Flag Matching Game | 2021 | davejonesuk.dev/projects/flag

Browser-based game built with vanilla JavaScript to master fundamentals before adopting frameworks. Implemented DOM manipulation, event listeners, and app state management from scratch. Demonstrates understanding of core JavaScript concepts without library abstractions.

Skills: Vanilla JavaScript, DOM Manipulation, Event Handling, Responsive UI

House Comparison Tool | 2021 | davejonesuk.dev/projects/house

Created practical utility for real-world problem: comparing properties during house search. Developed dynamic scoring system to evaluate properties against custom criteria. Deployed live application solving genuine user need.

Skills: JavaScript, Dynamic Scoring Logic, User Interface Design, Problem Solving

Small Business Website | 2026–Present | somebunnylovesyou.co.uk

Designed and built live website for independent small business. Managed full development lifecycle from design through deployment. Maintained ongoing relationship with client, incorporating feedback and handling continuous deployment and maintenance.

Skills: Responsive Web Design, Client Communication, Deployment, Ongoing Maintenance

EDUCATION & CERTIFICATIONS

Responsive Web Design Certification | [freeCodeCamp](https://www.freecodecamp.org/) | 2021

City & Guilds Automotive Repair (L1, L2, L3) | 2009–2012

ADDITIONAL

Maintains personal home server setups and infrastructure projects. Deep interest in understanding how systems work at foundational level, reflected in approach to software architecture and problem-solving.
